# Decoview Decorative Screens

Laser Cut & Perforated Aluminium Security

## Tested to Australian Standards

Rest assured knowing you are buying one of the strongest security screen doors on the market. Decoview Security Screen doors are independently tested by a certified NATA test lab for AS5039-2008.

Proudly Australian owned, made and manufactured. To keep local jobs and contribute to our economy.

Patented clip system, riveted fastening and 3mm aluminium sheet construction.

Available with a triple lock kit for added security. You can rest assured with Decoview.

Wide spectrum of colours, specially formulated to withstand harsh Australian conditions.

Superior pre-treatment of metals means lowest risk of corrosion of any security screen.

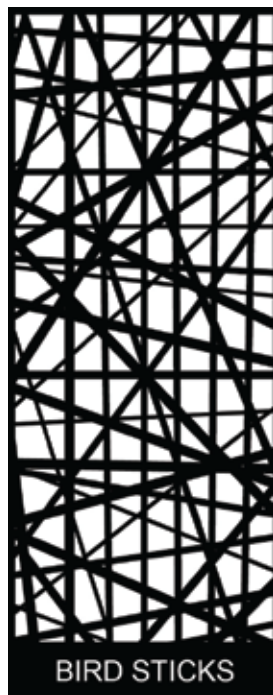

Patented clip fit extrusion system is incredibly strong and allows a range of panel thicknesses.
